THE NEW AREA OF AUTOMATED SURVEILLANCE

AiGUARD is a fully automated drone solution for surveillance. It provides around-the-clock service and security, without human intervention. This system can be connected to any security network to provide real-time HD video to security HQ.

AUTOMATIC QUICK SITUATION ASSESSMENT

AiGUARD is a fully automated drone solution for surveillance. It provides around-the-clock service and security, without human intervention. This system can be connected to any security network to provide real-time HD video to security HQ.

AUTOMATIC PATROLS

AiGUARD drones can also carry out daily scheduled surveillance missions and routine inspections all around the site.

OPERATIONAL SUPPORT

If an intervention is needed, AiGUARD drones offer a precious aerial vantage point to the coordinators of the operation.

EASY TO USE

- Fully automated and fast system deployment
- No pilot training for securityguards
- Intuitive control software with « click & go » simplified navigation

EASY TO IMPLEMENT

- Compatible with most of Video Management Systems
- On-site installation
- Team training
- Global maintenance contract
- Technical and operational assistance by experts

RELIABLE AND RUGGED SYSTEM

- Equipement redundancy (engines, electronics) & safety
- Pyrotechnic recovery system
- Orone gee-caging (for aerial safety)
- Safe trajectory live calculations
- Secured network connection

3 GOOD REASONS TO CHOOSE CREDAL

1

Innovative industrial-grade products

Thanks to a strong R&D team and in-house production facilities, Drones'Guard offers innovative solutions with the highest quality standards.

2

A team of experts to ensure correct solution implementation

Drones'Guard's team supports you in the use of its UAV solutions:

Systems configuration
Team training

Technical and operational assistance
Maintenance

OVER 50 EMPLOYEES
